

Role Profile

Job Title: Electrician
Department: Maintenance
Reports To: General Manager
Ref: Ref-305, V1 , 05 April 2024

Role Overview

Electrician is responsible for the maintenance of all compost equipment spanning a large site consisting of approx. 25 acres, including line support maintenance within a high-volume production environment, with main duties as follows:

- Maintain health, safety, and hygiene standards as a number one priority in accordance with company rules and regulations
 - Electrical and mechanical troubleshooting and repairs to heavy duty, PLC-controlled compost blending and conveying systems, Hydraulic & Pneumatic control systems, Fans and Air Handling Systems, Large System Control Panels with HMI Interfaces, Frequency Inverters, Soft Starters, Water & Well pumps etc.
 - Monitor performance. Work off your own initiative when a fault is detected and decide on action, based on your best judgment on whether to effect immediate repair or not
 - Ensure that all equipment preventative maintenance is carried out both efficiently and safely
 - Maintain accurate, up-to-date maintenance documentation, following good documentation practices and keep maintenance management updated on maintenance progress on site
 - To keep clean any areas in which you are working, including any transit areas to and from the workshop, including the workshop and stores
 - Support the production team in achieving targets
 - To oversee and assist if required, with any third-party contractors in carrying out their duties on our site as and when required
 - Being part of a callout service at weekends, if required, and form part of a rotating shift pattern
 - Co-operate and participate fully in training and development in cross-skilling and other job-related competencies
- This is not an exhaustive list and is subject to change and amendment.

Competencies to perform the role

- Excellent knowledge of electrical and electro-mechanical systems
- Strong troubleshooting/problem solving skills
- Self-motivated with the ability to work in a team
- Good communication skills verbal and written with proficient level of English
- A high level of technical ability
- Computer literacy including knowledge of basic Microsoft packages
- Works well in a fast paced and pressured environment
- Flexibility in relation to working hours

Education / Work Experience:

- Trades Qualified Electrician with strong mechanical knowledge
- Minimum of 5 years' experience within a maintenance environment, ideally food/agri/heavy plant
- Full driving licence

Performing the role in line with the Monaghan Cultural Values:

1. We do the right thing: We use this philosophy to drive every aspect of our business, from product, to process to people
2. Forward Thinking: We think ahead and we think for the long term
3. Down to Earth: We understand the importance of communicating our discoveries in a straightforward way
4. Inspiring: We seek out new ways to excite and inspire each other
5. Egalitarian: We have always been grounded in the belief that everyone is equal. That everyone deserves an equal chance to speak, be heard and make an impact
